# Eight of the Best

## Wall Safe

OZSAFE Wall Safes are designed to provide hidden protection for documents and miscellaneous valuables against theft. This type of safe is a practical answer for home owners defence. Keep your valuables close by and private!!!

## Pistol and Drug Safe

When you need premium security, for defensive products, enabling fast access combined with uncompromising strength. Take the time to review our range which is at the forefront with every unit manufactured complying with the highest levels of security and surpassing Health Department specifications.

## Floor Safes

Floor safes provide protection under your feet. OZSAFE has created a unique balance of strength and security while still commanding that significant protective edge. Built to order, the floor safe range offers excellent accessibility and fire resistance.- Hide your valuables away. Bully Safes are an excellent alternative for tight areas where room is at a premiere "BE SAFE NOT SORRY"

## Home Protector

Our engineers have designed this series for both the domestic and commercial markets. It is complemented in protection by fire and theft ratings. The home protector sales record reaches extremely high volumes and is a measure to the popularity and excellent manufacturing for which the product is renowned.

## Above Ground

A commercial based initiative, for those within the market seeking high levels of security and all out protection. The heavy gauge steel and one million variation combination lock, will frustrate even the most dedicated criminal element.

## Business Minder

The class act of the fleet - a genuine "handsome safe" - created with superior engineering concepts to dispel hardened criminals. Specially designed with defensive materials created at our manufacturing head office, enabling superior resistance to explosives, force and cutting instruments.
